REAL ESTATE
SERVICES

Achieving business objectives regarding culture, function and economics.

An organization's real estate is an important contributor to a successful business plan and deriving value from owned or leased space requires more than executing transactions. Thoughtful front-end planning addresses many critical issues companies face, such as site selection, portfolio management, workplace strategy, labor analytics and location intelligence.

Transwestern Real Estate Services assists clients from more than 200 offices in 37 countries through strategic alliances with France-based BNP Paribas Real Estate and Canada-based Devencore.

Good ideas put into practice. That's thinking beyond the obvious.
